

## Washer Quattro AC XB RGBW

Intelligent & powerful flood and façade lighting.

With precision optics, Washer Quattro AC XB RGBW is a powerful but energy efficient, full-color RGB plus W IP66 rated outdoor luminaire designed for architectural color-changing façade lighting and outdoor high brightness flood lighting applications.

The intelligent and powerful outdoor LED Washer Quattro AC XB RGBW provides superior close-field color mixing and light performance suitable for urban and tough environments with a variety of beam options ranging between 13°, 30°, 40° and 60°. The flexible luminaire mounting allows the Washer Quattro AC XB RGBW to be used for flood and façade lighting applications, while guaranteeing a vast light output of 3212lm. With active over-temperature protection, Washer Quattro AC XB RGBW enjoys a longer LED lifetime compared to other luminaires in its category. Remote Device Management, simple configuration and addressing makes it an easy to install and maintain luminaire for powerful illumination of office buildings, shopping malls, bridges, hotels and stadiums.

**INTELLIGENT** DMX control with Remote Device Management, with easy configuration and auto-addressing capabilities.

**POWERFUL** Flood illumination with super consistent light and close-field colour mixing of 16.7 million RGB plus W colors.

**LONGER LIFETIME** of luminaries through active over-temperature protection.

Technical Specifications & Options

BEAM ANGLE

ENVIRONMENT

TECHNICAL SPECIFICATIONS

LUMINOUS FLUX	3312 lm (RGBW), 4975 lm (DW)
EFFICACY	39 lm/W (RGBW), 59 lm/W (DW)
INPUT VOLTAGE	100 - 277V AC input
POWER CONSUMPTION	85 W
OPERATING TEMPERATURE	-20 to +50°C
POWER FACTOR	>0.9
CONTROL	DMX512 with RDM and auto-addressing capability
